Just in case you were confused about the Nez Perce's comments on the AOC, I am forwarding you my email to Mike Lopez. The AOC that the Nez Perce commented on is the AOC that Midas proposed, but never provided to us in writing. We were able to glance at it for a minute or two in a meeting, but never had a copy of it.

Hi Mike. Can you give me a call? I read the Nez Perce's comments and discovered that the Tribe did not comment on the EPA draft AOC. I remember you saying that you had a copy of the document from a court filing by Midas. Apparently the court filing did not attach the AOC that we are negotiating. I was confused by the Tribes' comments and discovered that the agreement the Tribe was referring to was an agreement that Midas drafted and EPA rejected, and which was attached to Michael Bogart's declaration attached to Midas' Motion to Stay. I have attached the most recent draft of the AOC. It is a very rough draft and is subject to change. I'm sorry for the confusion. I had not read Michael's declaration until today when I realized that things were not adding up with your comments. Please call me if you would like to talk.
